MARSHALL PROGRAM FORM

2008
(No. 8 on Structure Graph)

The National Fraternal Congress of America Marshall's Program was created to encourage and assist fraternalist in contacting elected federal, state and local public officials. By establishing a relationship with your officials you will be making progress on several levels. First you'll be letting them know about your organization. Second, you'll be strengthening the image and stature of all fraternal organizations. Lastly, you will be establishing a valuable communications link for the fraternal system. When serious issues do arise, knowing the right person can help us get things changed for the better.
